

SNAPS & SCRAPS

Gwenn McCormick's Memories of PEHS

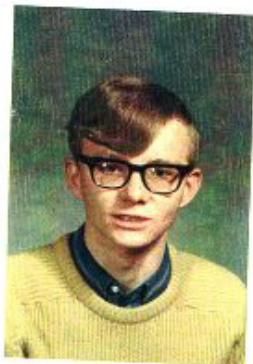

This is a collection of the photos that I took in Shilo, and represent all the fun and great times that I and so many had over the years. I would not give up attending high school there for any other big high school somewhere else. The friendships I made there are very special, and I still keep in touch with so many of my friends.

Just a few years ago, Shannon McGunigal, Larry Conners, and Robin Agardy and her husband and two daughters came to our cottage north of Toronto for a small reunion. Seeing my two sons, and Robin's two daughters sitting around a fire drinking with Larry Conners was absolutely surreal!! Just this year (2010) I went out to Vancouver Island and attended Robin's 60th birthday party.

The years have passed, but the memories are as fresh as yesterday.
